Andrea Luciani (IT)  
Silvio Monfardini (IT)  
Siri Rostoft (NO)  
Pierre Soubeyran (FR)  
Vincenzo Valentini (IT)  
Tanya Wildes (US)

SIOG's **unique CME accredited training programmes** are delivered by international experts in the field of geriatrics and oncology. The courses have been designed to meet the educational needs of healthcare professionals involved in the diagnosis, treatment or management of elderly patients with cancer.

The SIOG advanced courses provide the basis of the assessment and the multi-dimensional approach that should be applied to treatment of elderly cancer patients. The course covers general principles of cancer treatment using case-based discussions and debates in geriatrics for clinical oncologists as well as in clinical oncology for geriatricians.

Join us in Treviso, find your mentor, be part of an international network and become the bridge between the oncological and geriatric teams in your institution.

## Mark your calendar

■ Admission process opens	January 6, 2020
■ Admission process closes	February 10, 2020
